We are professional manufacturer of solar systems, providing complete solar programs of off-grid, on-grid/grid-tie and hybrid power storage systems for partners around the world.

Combining 215kWh of large-capacity storage with 100kW of continuous, stable power output, it leverages intelligent energy management to help businesses achieve electricity cost savings, ...

With the global energy storage market hitting a jaw-dropping \$33 billion annually [1], businesses are scrambling to understand the real costs behind these steel-clad powerhouses.

As electricity prices remain volatile and grid reliability continues to decline in many regions, commercial battery energy storage systems (BESS) are no longer a future ...

Ideal for integration with renewable energy sources, such as solar panels and wind turbines, this system supports businesses and communities in lowering their carbon footprint while ...

Boost your energy independence with our Container Industrial and Commercial Energy Storage System --a powerful 100kWh-215kWh solution with hybrid inverter, MPPT, and full safety ...

Our Commercial Solar Battery Containerized Energy Storage System is a strategic investment for any business committed to environmental ...

Are you seeking a cutting-edge solution to maximize renewable energy utilization while ensuring uninterrupted power supply? Look no further than the Bess 100KW Hybrid Solar Energy ...

Boost your energy independence with our Container Industrial and Commercial Energy Storage System --a
