How does a base station work?

Base Stations Blanket your home with security. The Base Station is the brains of your system. When one sensor or camera detects danger, it sends a signal to the Base Station, which sounds the siren and notifies you immediately. If it's unplugged or the power goes out, the 24-hour backup battery keeps you covered.

How do I activate the battery station?

Activating the battery station requires an optional USB Type-C to USB Type-A cable to connect it to a Matrice 300 RTK remote controller. Once connected, press the power button and use the DJI Pilot app to activate charging. See any errors on this page?
