-----

The batch size should pretty much be as large as possible without exceeding memory. The only other reason to limit batch size is that if you concurrently fetch the next ...

I have a question about if - else structure in a batch file. Each command runs individually, but I couldn't use &quot;if - else&quot; blocks safely so these parts of my ...

It's the same as "if &quot;%1&quot; == &quot;&quot; goto somewhere", except that will fail in batch files, because &quot;&quot; evaluates to nothing and the whole sentence reduces to "if %1 == goto somewhere". I prefer X, ...

How to loop through a python list in batch? [duplicate] Asked 8 years, 11 months ago Modified 2 years, 2 months ago Viewed 38k times

Windows batch file pattern rename Asked 13 years ago Modified 1 year ago Viewed 304k times

FOR %%A IN (list) DO command parameters list is a list of any elements, separated by either spaces, commas or semicolons. command can be any internal or external ...

In addition to %G in a for loop, %1 is also allowed. %% is needed in a script to avoid ambiguities. &quot;When working at the command line (not in a batch script) there is no ...

Addendum - This is a duplicate question with nearly identical answers to Using an OR in an IF statement WinXP Batch Script Final addendum - I almost forgot my favorite technique to test if ...
