FlexLink is a leading manufacturer of conveyors and manufacturing automation equipment for EV battery manufacturers and other heavy battery production operations.

Discover our specialized battery conveyor solutions designed for efficient handling, assembly, and manufacturing processes in the industrial sector.

Understanding the role of chain pallet conveyors in optimizing EV battery production is essential for gigafactories, automotive assembly plants, and battery module ...

FlexLink is a leading manufacturer of conveyors and manufacturing automation equipment for EV battery manufacturers and other heavy ...

Our range extends from conveyor systems for the production of battery cells to systems for the assembly of battery modules and solutions for palletising and handling.

Learn about the proper conveyors for EV battery assemblies, considerations when specifying a conveyor for your facility, and the benefits of choosing the right battery conveyor.

Eliminate pallets used for conveying your EV batteries with the touchless, gentle handling of Intralox Dual-Stacked Angled Roller Belt (DARB) ...

For carrying round battery cells, flexible flat-top chain conveyors are ideal. These conveyors can carry products over long spans, easily change elevations, and also travel around corners. ...

Conveyors enable battery components to efficiently travel between workstations. These automated transportation systems are reliable workhorses in the age of severe staffing ...
