---

CW Energy 545 Watt Bifacial Solar Panel (Silver Frame). 12-year product warranty on materials and workmanship. 30-year linear power output performance warranty.

545W monofacial output with up to 710W bifacial gain, powered by half-cut MBB cell technology for minimized power loss and higher yield. ...

High-efficiency bifacial solar panels designed for maximum energy output and durability. Engineered for low power loss, improved shading tolerance, and reduced hot spot ...

Engineered with 144 half-cut monocrystalline cells, CW Energy 545W bifacial solar panel reduces internal current flow and hot spot temperatures, improving shading tolerance and extending ...

The TALESUN TD7G72M is a high-quality bifacial dual glass solar module with a maximum power output of 545 watts that delivers exceptional performance and durability for commercial solar ...

This JA Solar panel provides 545 W of power at 21.1% efficiency. High energy production levels are achieved through the usage of the latest advances in the solar industry, including PERC ...

545W monofacial output with up to 710W bifacial gain, powered by half-cut MBB cell technology for minimized power loss and higher yield. Laminated on both sides with EVA and glass, this ...

The SolarSpace SS8-72HD panel delivers 545 watts of power, making it a ...

This high-performance module combines strong rated output, bifacial energy gain, and rugged construction to deliver dependable solar power production across a wide range of environments.

High-efficiency bifacial monocrystalline solar panel designed for maximum energy output and durability, featuring Passivated Emitter Rear Contact (PERC) and half-cut cell technology for ...

The SolarSpace SS8-72HD panel delivers 545 watts of power, making it a high-performance choice for residential, commercial, and utility-scale solar applications.

The JA Solar JAM72D30-545/MB is a high-performance 545W bifacial solar panel featuring advanced 11BB PERCIUM cell technology in a double-glass configuration.
