Why do we need energy storage solutions in Bulgaria?

Establish a reliable energy system with greater share of intermittent generation. In the context of Bulgaria's energy landscape, energy storage solutions present a diverse array of benefits to various stakeholders stemming from its unique ability to time-shift energy and rapidly respond when called upon. The applic

Can battery-based energy storage improve peaking capacity in Bulgaria?

Storage can also offer greater flexibility and efficiency in managing the grid. Furthermore, and although hydropower storage already makes up a significant source of peaking capacity in Bulgaria, battery-based energy storage can address peaking needs during times of droughts, meet requirements for more distributed peaking po

Where does Bulgaria get its electricity from?

It came from thermal power stations, and only 7 percent from solar and wind. Historically, Bulgaria has also been a major producer and exporter of electricity for the surrounding region with a total of 10 interconnectors spread across Romania, Serbia, North Macedonia, Greece, and Turkey. The country thus has a critical role in driving a more s

Should Bulgaria move away from coal?

In countries, a move away from coal is not just a challenge for the energy system. It also brings wider challenges around job security and an urgency for Bulgaria to seize the new regional opportunities created by the ever-growing renewable sector. Fortunately, Bulgaria sits in the privileged position where it can

International Power Supply (IPS), a Bulgarian manufacturer of battery energy storage systems, is about to launch operations at its new facility near Sofia. Its latest model ...

Hithium is a leading manufacturer of top-quality stationary energy storage products for utility-scale as well as commercial and industrial applications. With more than 20GWh ...

Hithium has launched a 55 megawatt hours (MWh) battery energy storage system (BESS) project in Razlog,

southwestern Bulgaria. The project, the largest in Eastern Europe, ...

Designed with a focus on cost-efficiency, safety, ease of maintenance, system compatibility, and environmental sustainability, it provides a ...

Discover all relevant Energy Storage Companies in Bulgaria, including AES Bulgaria and International Power Supply

International Power Supply (IPS), a Bulgarian manufacturer of battery energy storage systems, is about to launch operations at its new ...

The battery energy storage system (BESS) in Lovech, northern Bulgaria, is comprised of 111 battery containers and has a total capacity of nearly 500MWh, the Ministry of ...

Hithium has launched a 55 megawatt hours (MWh) battery energy storage system (BESS) project in Razlog, southwestern Bulgaria. ...

As the first 40ft container energy storage project in Bulgaria, SCU has demonstrated its leading position in the field of large-scale ...

Hithium is a leading manufacturer of top-quality stationary energy storage products for utility-scale as well as commercial and ...

As the first 40ft container energy storage project in Bulgaria, SCU has demonstrated its leading position in the field of large-scale commercial and industrial energy ...

Stacks are primarily used for home systems but Sigenergy has installed a 10 MW/20 MWh project at a solar site in Malko Tarnovo. Sorting stationary battery energy storage ...
