South Australian (SA)-headquartered turnkey energy solutions company YES Group has kicked off 2025 by energising the first phase of its 15 MWh Molongolo battery ...

The large-scale battery storage system in Williamsdale will deliver 250 megawatts (MW) of power, store renewable energy and support grid reliability. This is enough energy to power one-third ...

Our Battery Energy Storage Systems are built with reliability, flexibility and support in mind. KTECK is with you all the way as you embark on your 15, 20, 50 or even hundreds of ...

Housed in durable shipping containers, our systems are engineered to meet the growing demand for renewable integration, backup power, and off-grid energy supply.

South Australian (SA)-headquartered turnkey energy solutions company YES Group has kicked off 2025 by energising the first ...

The large-scale battery energy storage system (BESS) will provide at least 250 megawatts (MW) of power. This is enough energy to power one-third of Canberra for two ...

Over the next year, three new community-scale battery energy storage systems (BESS) will be deployed across Canberra to optimize solar energy usage, stabilize grid ...

As heatwaves bake grids and storms knock out power lines, the Canberra reservoir serves as an energy insurance policy. During 2024's "Black Summer 2.0" bushfires, early-stage storage ...

The Big Canberra Battery will play a crucial role in managing peak electricity use demand and in supporting

the ACT's transition to a more sustainable energy future.

Energy Storage is critical for ACT's 100% renewables and net-zero target. Helps to put downward pressure on electricity price paid by ACT consumers. Reduces the need for electricity network ...

Over the next year, three new community-scale battery energy storage systems (BESS) will be deployed across Canberra to optimize ...

The project will support 150 local jobs in the emerging clean energy sector. Battery storage technology is a key component of the ACT's net-zero emissions future.
