**Overview** Solar thermal power Early photovoltaics projects Further reading In June 2014, the 100-megawatt (MW) Amanecer Solar CAP, a photovoltaic power plant located near Copiapó; in the Atacama Desert was inaugurated. It was developed by the company with the same name, Amanecer Solar CAP, and was the largest in Latin America at the time. It is capable of generating 270 gigawatt-hours (GWh) of electricity per year.

The project is located in Maria Elena municipality, in the Antofagasta region in Chile. It is expected to be one of the country's ...

Built by ContourGlobal - a KKR Group company - Quillagua is a solar power plant with a nominal capacity of 221 MWp and equipped ...

One aspect of the development of Chile's BESS market this year that seems to have taken Silva by surprise is that he expected the ...

Built by ContourGlobal - a KKR Group company - Quillagua is a solar power plant with a nominal capacity of 221 MWp and equipped with a 1.2 GWh battery storage system, ...

Solar and energy storage deployment is booming in Chile, spurred on by supportive government policy that has been markedly stable for 15 years. Indeed, the nation leads Latin ...

Solar PV in Chile is facing a twofold issue: on the one hand, the ever-increasing curtailment of generation; on the other, the reduction ...

The first two phases of Oasis de Atacama, the largest solar power and energy storage project in Latin America,
