What is Aarhus Vand?

The purpose of Aarhus Vand is to create health through the supply of clean water-- to the population and the planet. Our vision is to create a national platform as a driver for local and global solutions for a healthier water cycle. Social responsibility and sustainability are deeply rooted in our corporate culture as a part of our core business.

What is Aarhus rewater?

See the Business Plan 2024 with videos,interviews and articles: Aarhus ReWater is a new and groundbreaking way to treat wastewater. The vision is to create the world's most resource-efficient treatment plant. The goal is to convert wastewater into energy and products,which is why we also call it a resource facility.

Is Aarhus Vand A purpose-driven utility?

Aarhus Vand is a purpose-driven utility. Since 2020,providing health through clean water to people and the planet,has been the compass. In a case study by Dr. Patty Lindstrom,it is explored how purpose drives innovation. 03. Oct 2025
