Why is ESB launching a new battery plant in Dublin?

Wednesday, 7th February 2024 Dublin, Ireland - ESB has today opened a major battery plant at its Poolbeg site in Dublin which will add 75MW (150MWh) of fast-acting energy storage to help provide grid stability and deliver more renewables on Ireland's electricity system.

Are battery energy storage systems a 'great achievement' in Ireland?

ESB Networks described the project as a "great achievement for battery storage" in Ireland. Battery energy storage systems, often referred to as Bess, are regarded as a vital part of the Ireland's fledgling renewable energy sector and demand for them has never been higher.

Which battery energy storage systems are available in Ireland?

The Kylemore Battery Energy Storage System in Dublin went into operation in 2023 and has the capability of providing 30MW of fast-acting storage. The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage.

How many MW of battery storage capacity are there in Ireland?

We currently have more than 300MW of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale battery projects, as well as additional renewable enabling technologies.

Dublin[A] is the capital and largest city of Ireland. [12][13] Situated on Dublin Bay at the mouth of the River Liffey, it is in the province of Leinster, and is bordered on the south by the Dublin ...

In all likelihood, you don't need us to tell you that the pub is a quintessential Dublin experience, but here we are. It's where you'll meet Dubliners at their convivial, easygoing best ...
