-----

Eritrea has secured about US\$50 million from the African Development Bank (AfDB) to construct a 30MW solar PV project, hoping to increase the reliability of electricity supply and the share of...

Solar developer Aptech Africa announced Monday the successful installation of a new hybrid solar system at Mendefera Hospital in Eritrea. This system, designed for the ...

In a landmark move toward sustainable energy, Eritrea is set to welcome its first solar photovoltaic energy storage plant, marking a significant step in the nation's renewable ...

The Eritrea Energy Storage Project demonstrates how strategic energy investments can transform a nation's power infrastructure. By combining solar potential with smart storage solutions, ...

The AfDB has awarded China Energy Engineering Group a contract to build a 30 MW solar PV plant near Dekemhare, Eritrea, a project that also includes battery storage and ...

With Eritrea's average solar irradiance of 6.5 kWh/m<sup>2</sup>/day (see table below), combining portable storage with solar panels creates self-sufficient systems. Recent projects in the Northern Red ...

The AfDB has awarded China Energy Engineering Group a contract to build a 30 MW solar PV plant near Dekemhare, Eritrea, a ...

Despite the positive outlook, the programme faces challenges, including difficult terrain, limited technical expertise, and supply-chain constraints for solar panels and wind ...

At the World Health Organization (WHO) offices in Asmara, Eritrea, solar energy has taken center stage with
