This approach addresses the planning and operation of the energy system "as a whole", across multiple energy carriers, infrastructures, and consumption sectors. It sets out ...

This funding program seeks to develop and demonstrate the production of fuels using concentrating solar thermal (CST) energy to deliver heat to the system.

In this article we consider the role and application of battery energy storage systems (BESSs) in supporting renewable energy power generation and transmission systems ...

LPO can finance short and long duration energy storage projects to increase flexibility, stability, resilience, and reliability on a renewables-heavy grid.

These grants follow the company's \$9.4M Series A financing led by Khosla Ventures for a total of \$25 million to support demonstrations of RedoxBlox's cutting-edge ...

Instead, energy could be stored when its prices are low and then discharged when prices are high; this will enable industry players to leverage fluctuating prices and provide valuable ...

Grant Proposal Wizard - We have developed a network of private funding organizations and investors across the United States. We can reach out and submit your proposal to these ...

As utilities, developers, and communities deploy storage facilities ranging from residential backup systems to utility-scale installations exceeding 100 megawatts, access to specialized financing ...

Calectra is developing a power-to-heat thermal storage technology to provide manufacturing industries with
