Mission 300 provides a unique opportunity to catalyze the public and private finance needed to support the rapid scale-up of off-grid solar. First, to attract private capital, public ...

This project, the first of its kind in East Africa, installed 4 solar stations across Ethiopia's most challenging terrains, including the conflict ...

Superb safety: triple fire protection measures guarantee early detection, accurate spraying, and rapid fire suppression throughout the entire process; big data intelligent fire monitoring system ...

Solar-powered water pumping systems are revolutionizing agriculture and water access in rural Africa. These systems use photovoltaic panels to power pumps that draw water ...

SCU has deployed a solar energy storage system in rural Mali, Africa, to effectively solve the local basic electricity demand, illuminate the ...

Mission 300 provides a unique opportunity to catalyze the public and private finance needed to support the rapid scale-up of off-grid ...

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV ...

Below is a narrative description of how a solar-powered shipping container is revolutionising the face of access to global energy, off-grid energy, grid backup, and clean ...

This project, the first of its kind in East Africa, installed 4 solar stations across Ethiopia's most challenging
