How much does a g903 mouse weigh?

The mouse weighs 100 grams. The original G903 mouse feet glide as smoothly and quickly as skaters in new skates on a freshly polished ice rink. As a result of wear of the surface in contact with the mat, the manipulator loses its usual smoothness and accuracy of movement. G903 replacement skates are the perfect way to quickly fix things.

What are g903 replacement skates?

G903 replacement skates are the perfect way to quickly fix things. Replacement mouse feet are identical to the original ones. These are 0.8 mm thick pads made of deep ground PTFE material. The thickness provides the glides with good durability. FeetGlide will deliver the consumable with worldwide delivery in 10-24 days.

Does Logitech g903 have Teflon feet?

The Logitech G903 Wireless Mouse is no exception in this regard. The original mouse feet of the manipulator are prone to scratches and thinning. In order not to lose a dominant position in games due to less accurate operation of the device, it is worth keeping replacement teflon feet for the Logitech G903 mouse on hand.

Are Logitech g903 wireless mouse feet good?

Teflon mouse feet for Logitech G903 Wireless Mouse - perfect glide, no matter how long you use it. No matter how durable and high-tech the design of the gaming mouse is, it's impossible to completely eliminate wear and tear. Under regular load, the skates begin to wear out over time, ensuring smooth and precise sliding.
