-----

We have deployed Solar Power Container units at three of our mines and the results have been outstanding. The ease of transportation and short installation time saved us weeks of downtime.

12+ years experience on OEM solar container productions, we are supplying high range of solar mounting systems with innovative design which easy to install.

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, we also offer the manual version of this unit.

Our Solar Container System is designed for businesses seeking efficient energy solutions. As a professional in the industry, I understand the importance of reliable power, and our system ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail ...

We are proud to partner with one of the leading providers of factory installed solar options for shipping containers. Learn more about the product and inquire below.

Solar POD specializes in creating modular solar power solutions that couple renewable energy generation with superior energy management systems. Their products are ...

The company delivers modular, containerized solar power solutions that cater to remote, off-grid, and
