The Borno State solar panel plant and industrial hub, commissioned in 2019, remains locked despite huge expenses and ...

In April 2019, the state's former governor, Kashim Shettima, unveiled an automated solar panel manufacturing plant in the state. Shettima left office in May 2019.

Reasons Behind The Unveiling of The Solar Plant
What The Solar Plant Factory Tends to Achieve
Economic Development
How Good Is This For Borno State and Nigeria?
This is a welcome development for Borno State and Nigeria as a whole. Not only is this solar factory the largest in Africa, it will also be poised to become a major source of revenue generation for the state. This will, in turn, improve the state's Internally Generated Revenue. Meanwhile, many Nigerians are pleased with this development. See some of t...
