How can we improve a folding container?

How can we improve ? A folding container is a resin-made box that can be compactly folded when not in use. Folding reduces the size to about 1/3 to 1/4, so can be stored compactly during storage and transportation. In addition, containers can be folded and assembled easily and quickly, and can be stacked in both folded and assembled states.

How much does a shipping container cost?

Cargo-worthy (CW) containers will have some wear and tear from use but are still seaworthy. A cargo-worthy shipping container costs on average \$1,500 to \$5,000 depending on its size. Wind and watertight containers (WWT) have been used but are in generally good structural condition with no holes or leaks, which makes them wind and watertight.
