Why do we need electricity connections in Jamaica?

Such connections can help to balance out supply and demand across regions, which will be increasingly important as variable renewables like solar and wind make up a larger share of electricity generation. Jamaica did not import electricity.

Who buys electricity in Jamaica?

JPS also purchases additional electricity close to 297 MW from Independent Power Producers (IPPs) such as Jamaica Energy Partners (JEP), Jamaica Private Power Company (JPPC), Jamalco, and Wigton Wind Farm. The grid currently provides electricity access to approximately 97% of Jamaican households. Jamaica Energy Partners (JEP)

Did Jamaica import electricity?

Jamaica did not import electricity. Power generation, which includes electricity and heat, is one of the largest sources of CO₂ emissions globally, primarily from the burning of fossil fuels like coal and natural gas in thermal power plants. of total energy-related CO₂ emissions

Does Jamaica have a power grid?

The grid currently provides electricity access to approximately 97% of Jamaican households. Jamaica Energy Partners (JEP) Jamaica Energy Partners is an Independent Power Provider that began commercial operations in October 1995, through its ownership of the Doctor Bird Power Plant.

Our product range and services include, among other things, UPS systems, batteries, electrical wiring, transformers, generators, DC systems and ...

To ensure we deliver this promise, we listen to our customers to understand their situations and determine their needs, then we proceed to design possible solutions. All solutions, including ...

EPSOL has made its mark with the recognition as one of the leading power solution companies in Jamaica. Our customers are from all sectors of the economy namely Government, Commerce, ...
