Who makes aluminum solar panel frames?

Targray's portfolio of aluminum solar panel frames is a trusted source for PV module manufacturers seeking superior mold sophistication at a competitive price.

How many solar panel manufacturers are there?

Companies involved in Frame production, a key sourcing item for solar panel manufacturers. 154 Frame manufacturers are listed below.

What are solar panel frames made of?

Most of the solar panel frames we provide are made from anodized aluminum due to the strength, durability, and resistance of the material. Anodized aluminum is a non-conductive material which causes no interruptions in the normal functioning of solar panels. It has a high level of tensile strength to resist winds, snow, and other natural elements.
