-----

Ranging from 208kWh to 418kWh, each BESS cabinet features liquid cooling for precise temperature control, integrated fire protection, modular BMS ...

The EnerOne+Rack is a modular fully integrated product, consisting of rechargeable lithium-ion batteries, with the characteristics of high energy density, long service life, high efficiency.

Containerized Liquid-cooling Energy Storage System represents the cutting edge in battery storage technology. Featuring liquid-cooling DC battery ...

Equipped with MSD fuses and intelligent Battery Management Units (BMUs), it delivers a safe and stable energy storage solution for even the most demanding environments.

Discover GSL Energy's advanced liquid cooling energy storage systems for commercial and industrial applications. Scalable to 5MWh, certified by UL, CE, CEI and IEC.

It combines top-tier LiFePO4 cells, advanced liquid cooling, and AI-powered safety features to ensure reliable operation and long lifecycle ...

It can manage energy absorption and release, the thermal management system, and auxiliary power supply according to the detected information: battery voltage, current, and temperature.

It combines top-tier LiFePO4 cells, advanced liquid cooling, and AI-powered safety features to ensure reliable operation and long lifecycle performance. Fully pre-assembled, it offers fast ...

integrated fire protection, modular BMS architecture, and long-lifespan ...

HyperCube is a liquid-cooling outdoor cabinet suitable for energy storage. It features high safety, a long lifespan, high efficiency, stability, scalability, and rapid response.

HyperCube is a liquid-cooling outdoor cabinet suitable for energy storage. It features high safety, a long lifespan, high efficiency, stability, scalability, ...

Each outdoor cabinet is IP56 constructed in a environmentally controlled liquid cooled cabinet including fire suppression. Multiple 373kWh cabinets can be installed together creating up to ...
