Is London power a green energy company?

The Mayor of London, Sadiq Khan, today announced plans for a new, fair-priced, green energy company, available exclusively to Londoners from this December. London Power is a partnership between the Mayor and Octopus Energy, the only Which? Approved energy supplier in the UK.

Why should you choose London power?

With London Power all the electricity you use will be matched with power generated from renewable sources like the sun and wind. We can also carbon offset your gas. With our simple plans, you know you're on the best rate. We offer simple switching and world-class customer service.

Does London power offer cheap electricity & gas?

We offer affordable electricity and gas to all Londoners. Once your current plan is up, we'll automatically switch you to our cheapest similar plan. With London Power all the electricity you use will be matched with power generated from renewable sources like the sun and wind. We can also carbon offset your gas.

When did the London Power Company become a company?

The London Power Company was an electricity generating and bulk supply company in London, England, formed in 1925 by the merger of ten small electricity companies. In 1948 Britain's electricity supply industry was nationalised under the Electricity Act 1947 and the company was absorbed into the British Electricity Authority.

London Power is an electricity and gas supply company in the United Kingdom, launched in 2019 by Sadiq Khan, Mayor of London, [1] which only accepts customers at London addresses.
