---

Luxembourg is making a strong push to expand its solar energy capacity with the launch of two fresh solar tenders designed to encourage investment and innovation in clean ...

Photovoltaic technology has accelerated in recent years in Luxembourg. If small installations are plentiful, a new phenomenon is emerging: the ...

State-owned buildings will be solarized. The government will explore the deployment of solar panels for parking areas and/or vacant land as well as along the ...

On Thursday 12 September 2024, Banque Raiffeisen inaugurated an installation of 414 photovoltaic panels producing an estimated 152,000 KWh per year. Banque Raiffeisen ...

Recently, Banque Raiffeisen inaugurated the first "100% made in Luxembourg" solar project by choosing to install Luxembourgish ...

Luxembourg set a new record in its renewable energy push in 2024, with 8,000 solar panel systems installed across the country - nearly a third of all installations - driven by ...

Under the scheme, residents can purchase one panel for just EUR150 or two for EUR250, drastically lower than the typical retail prices of EUR750 and EUR1,100, respectively.

State-owned buildings will be solarized. The government will explore the deployment of solar panels for parking areas and/or vacant ...

Recently, Banque Raiffeisen inaugurated the first "100% made in Luxembourg" solar project by choosing to install Luxembourgish photovoltaic panels on their roof.

The two ministries plan to revise feed-in tariffs, introduce battery subsidies for existing solar systems, and expand support for solar on affordable housing.

Even a small country can hold great potential for solar energy--limited land area is no longer a barrier to building PV systems. A great example is the construction of two new ...

Photovoltaic technology has accelerated in recent years in Luxembourg. If small installations are plentiful, a new phenomenon is emerging: the installation of large power plants of more than 1 ...
