ITRAMAS leads in building high-capacity solar and BESS infrastructure that powers sustainable growth across Malaysia and beyond.

“To meet the expectation of a BESS system that has high energy density, small footprint, simpler AC-side configuration, and flexible deployment, we bring the latest CATL ...

In a bold stride towards a greener future, Malaysia's Ministry of Energy Transition and Water Transformation (PETRA) has announced ...

GoodWe, the global leader in solar inverters and energy storage solutions, announces the successful completion of the Solar Citra ...

Malaysia is rapidly expanding solar and other intermittent renewable generation, creating strong momentum for energy storage. ...

The project not only uses ALLTOP's advanced battery technology integration solution, but also plays a key role in the stable operation of the grid, the large-scale ...

GoodWe, the global leader in solar inverters and energy storage solutions, announces the successful completion of the Solar Citra Project, a 10.95-megawatt (MW) solar ...

The project will feature a containerized 1.9MW/3.8MWh energy storage system as the main energy storage equipment, while efficient photovoltaic components will provide clean electrical ...

On May 7th, 2025, CATL has unveiled the world's first mass-producible 9MWh ultra-large-capacity energy
