Should investors invest in sustainable solar projects in the Maldives?

In 2014, the first 1.5 MW solar project under ASPIRE only had four investors bids, and resulted in a high power purchase price (PPA) of 21 US cents per unit of electricity, indicating a lack of interest from investors in investing in sustainable projects in the Maldives.

How much does a solar project cost in Maldives?

In 2022, 63 investor expressed interest in the third 11 MW solar project in the remote islands of Maldives, and a record low price of 9.8 US cents was received. This is one of the lowest tariffs for any small island developing state (SIDS).

Will a 5 MW solar installation make Maldives a popular destination?

Now, one of the first sights for any of the 1.7 million tourists visiting the Maldives will be that of the 5 MW solar installation on the highway linking the airport island to Male and its satellite town of Hulhumale.

Is Maldives ready for hybrid solar PV-diesel?

Maldives aims to transform the energy systems of at least 160 islands from diesel-based to hybrid solar PV-diesel systems through the Preparing Outer Islands for Sustainable Energy Development (POISED) project, which was established in 2014 with the support of the Asian Development Bank (ADB). The project focuses on the implementation of hybrid solar PV-diesel systems.

This USD 200 million opportunity enables investors to deploy 100MW of household solar systems across the Maldives, creating the region's most extensive distributed residential energy ...

The Maldives invites bids for a new 1.5 MW rooftop solar project across 11 islands, part of the ARISE program. Learn about the tender, PPA details, and EIB support.
