Along with other programs and projects, AEPC is executing a project "Promotion of Solar Energy in Rural and Semi-urban Regions of Nepal" with financial assistance from the Federal ...

TSMG exhibited an energy generation of 83.206 MWh/year in 2021 and 112.140 MWh/year in 2022, with a peak sun hour (PSH) of 5.5 h. Conversely, SSMG energy generated ...

In this blog, we will discuss innovative solutions for earthquake-resilient homes in Nepal, highlighting the importance of ...

Building earthquake-resistant structures and sustainable communities in Nepal. "I am not trying to become the change -- I am the change." My passion for engineering began during childhood ...

This guide will demystify the essential principles and techniques of earthquake-resistant construction in Nepal (bhukampa ...

Contact us today to explore customized solar solutions for your needs, whether you're interested in grid-connected, off-grid, or hybrid solar systems. Our team at Solarvance is here to guide ...

Four novel multi-hazard resilient building prototypes are proposed, rigorously tested for compliance with Nepalese building codes using shaking table experiments and numerical ...

Since 2015 the social enterprise Buildup Nepal Engineering provides innovative machines and technology allowing local entrepreneurs to produce eco-friendly earth bricks and earthquake ...

TSMG exhibited an energy generation of 83.206 MWh/year in 2021 and 112.140 MWh/year in 2022, with a

peak sun hour (PSH) of 5.5 ...

Building earthquake-resistant structures and sustainable communities in Nepal. "I am not trying to become the change -- I am the change." My ...

In this blog, we will discuss innovative solutions for earthquake-resilient homes in Nepal, highlighting the importance of seismic design, materials, and construction techniques. ...

SW Nepal researches green building technologies, offering cost-effective, earthquake-resistant, and sustainable housing solutions in Nepal.
