The iCON 100kW 215kWh Battery Storage System is a fully integrated, on or off grid battery solution that has liquid cooled battery storage (215kWh), inverter (100kW), ...

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage requirement.

AZE's battery energy storage system (BESS) are designed to store 19" lithium batteries, inverters and electrical components in one outdoor cabinet, with features like high energy density, ...

AZE's all-in-one IP55 outdoor battery cabinet system with DC48V/1500W air conditioner is a compact and flexible ESS based on the characteristics of small C& I loads.

Ideal for retail stores, restaurants, small factories, telecom base stations, and temporary event sites, these cabinets combine rugged protection (IP54), integrated inverters, and scalable rack ...

Our solution is an all-in-one package: Battery packs, charge controller, BMS, EMS, and PcS, all integrated into a single unit with a highly efficient three-level topology to optimize system ...

String PCS is adopted to improve the battery life cycle and support off-grid/quad-connected/off-grid hybrid modes, etc. Instant switching and black starting. Customization possibility. Read more ...

The EPIC series battery cabinet offers a NEMA 3R and NEMA 1 modular design, with built in intelligence, will safely house any combination of batteries, chargers, DC distribution, and/or ...

Our innovative modular design caters to diverse application needs, offering eco-friendly, high-yield solutions.
