-----

Late today, JA Solar (002459. SZ) announced that it plans to invest in the construction of an annual output of 6GW of high-efficiency solar cells and 3GW of high-power solar modules in ...

Projects like the 100GW Great Solar Wall in Inner Mongolia and the 4GW Ruoqiang Solar Project showcase its ability to deploy VRE at an unmatched scale and speed.

Over 30 companies, including JinkoSolar, JA Solar, LONGi, Trina, Chint and Tongwei, signed deals totalling over 10GW, spanning the entire PV value chain, from cells and ...

In two separate projects Japan-based Kyuden Mirai Energy and Nissan Motor are demonstrating the use of flexible, glass-free chalcopyrite PV panels provided by PXP ...

Chinese PV module manufacturer Haitai Solar has announced the termination of a 10GW TOPCon solar cell project and the cancellation of its R& D centre expansion plan. ...

This milestone delivery marks the supply of advanced modules for a prestigious 6.5MW Commercial and Industrial (C& I) solar project in Yemen, in collaboration with ...

JA Solar's investment in Oman is not only part of its globalization strategy but also reflects Chinese enterprises' optimism about the Middle East's renewable energy market.

As of the end of 2023, the combined module capacity in Indonesia and Laos reached 3.5GW. Among overseas manufacturers, SEG Solar, Apollo, and New East Solar all ...

A deep dive into the titans of the solar photovoltaic industry, from module manufacturing to grid intelligence. Discover the leaders shaping the energy transition.

Chinese PV module manufacturer Haitai Solar has announced the termination of a 10GW TOPCon solar cell project and the cancellation ...

JA Solar"s investment in Oman is not only part of its globalization strategy but also reflects Chinese enterprises" optimism ...

SolarSpace, a China-based PV cell and module manufacturer, announced the first phase of a 5GW high-efficiency solar ...
