Redefining off-grid surveillance, this industrial-grade solar solution delivers truly endless, high-power video monitoring and edge connectivity without reliance on grid power or wired internet.

Featuring flexible networking and easy operations, the box is a perfect ...

Featuring flexible networking and easy operations, the box is a perfect match for smart inverters in large-scale C& I rooftop and ground-mounted PV projects. Optical fiber ring network ...

Using 4G/5G and optical fiber for data transmission, it integrates terminal devices from different industries for innovative applications in network-free ...

EK-SG-R01 is a large outdoor base station with large capacity and modular design. This series of products can integrate photovoltaic and wind clean energy, energy storage batteries, and ...

Our proven HELIOS Solarator(TM) products are mobile, containerized renewable energy stations trusted by major corporations and government bodies on remote, regional, and urban sites.

A shipping container solar system is a modular, portable power station built inside a standard steel container. A Higher Wire system includes solar panels, a lithium iron phosphate ...

Solar containers provide a complete package of power generation with military-grade robust protection. They are not just solar panels in a box; solar panels, intelligent energy ...

Using 4G/5G and optical fiber for data transmission, it integrates terminal devices from different industries for innovative applications in network-free and power-free environments. It employs ...
