The sale of this portfolio to an international IPP investing in Italy, underscores the strength of our pipeline and our commitment to accelerating the energy transition in the country.

Solarfold amortises very quickly, whether operating in Italy, northern Germany or in Austria; and guarantees ideal energy yields - whatever the weather. It's an investment that pays off very ...

These platforms, constructed from offshore-grade aluminum, elevate solar panels more than 3 meters above the water surface, ...

This large-capacity, modular outdoor base station seamlessly integrates photovoltaic, wind power, and energy storage to provide a stable DC48V power supply and optical distribution.

Highjoule powers off-grid base stations with smart, stable, and green energy. Highjoule's site energy solution is designed to deliver stable and reliable power for telecom base stations in off ...

We were fortunate to be able go behind the scenes of some interesting mini power stations in Italy, so continue reading for our top picks and how they are changing the face (and ...

The off-grid version consists of a Solarfold container which, in conjunction with a suitable additional storage container, is not connected to the public power grid and functions ...

ItalCantieri is an Italian wind turbines and renewable energy technology manufacturing industry looking for Wind Power, Photovoltaic plants and co-generation distributors or customer ...

I'm interested in learning more about your Italian solar container communication station wind power
