How long does a solar panel warranty last?

A standard solar panel warranty should come with at least 10 years of protection, though many premium options now offer 25 or even 30+ years of coverage. Most solar panel warranties won't reimburse for labor costs associated with installing new equipment or shipping fees for replacement parts.

What is a solar power warranty?

A solar panel's power warranty ensures that it will generate a certain percentage of its original output through its expected lifespan. Also known as the performance warranty, today's top-tier solar panels are sold with power warranties of at least 80% electricity-generating capacity after 25 or 30 years.

What warranties does a solar system have?

Today, most home solar energy systems include three primary coverages: product warranties, performance guarantees, and installation warranties. 1. Product warranties A solar product warranty covers the physical components of your system, such as the panels, inverters, or batteries.

Are solar panel warranties worth it?

Overall, panel warranties are helpful for saving money on repairs, replacements and energy bills, and they improve the value of your solar energy system overall. The peace of mind you get knowing your multi-thousand dollar renewable energy system is protected is also priceless. What Do Solar Panel Warranties Cover?

Many leading solar panel manufacturers extend this coverage even further, with some offering up to 25 years of product warranty to guarantee the quality and reliability of their panels.
