Who is eligible for the residential solar and storage equity budget?

You may be eligible if you are in or serve a low-income or disadvantaged community. The Residential Solar and Storage Equity budget provides incentives for installing qualifying standalone energy storage technologies and solar paired with storage for low-income residential customers within the SDG&E service territory.

Can a non-residential energy storage system be sized greater than previous peak demand?
vious 12-month annual peak demand (kW). Non-residential energy storage systems that are receiving Equity Resiliency Budget incentives or that are receiving the Resiliency Adder may be sized greater than the Host Customer's previous 12-month peak demand if this is necessary due to modular component sizes (kW) of the proposed system

Do investors invest in generation-side ESS projects under electricity price and subsidy policy uncertainties?
The study considers investors' continuous capacity investment in generation-side ESS projects under both electricity price and subsidy policy uncertainties. Assume that the ESS project has an installed capacity of q and is gradually completed through n stages of sequential investment.

Who is eligible for energy storage incentives?
You may be eligible if you are in a High Fire-Threat District (HFTD) or have been affected by two or more Public Safety Power Shutoff (PSPS), Enhanced Power Safety Settings (EPSS) and/or wildfire events. Energy storage incentives are reduced as the duration of energy storage (Wh) increases.
