What are the opportunities for Swedish glass?

Opportunities lie in the growing demand for sustainable and high-quality glass products, especially in construction and consumer goods. The global market relevance of Swedish glass extends to exports, with unique designs and high standards appealing to international markets.

Why is Sweden's glass industry so important?

Sweden's glass industry benefits from a rich tradition of craftsmanship, which attracts both domestic and international clients, particularly in the architectural and design markets. However, challenges include fluctuating raw material costs and the need for continuous investment in technology to stay competitive.

Which float glass is best for solar applications?

Arsenic- and antimony-free extra clear float glass for solar applications. SunMax Premium is exclusively produced in a float glass process. The industrial float glass process adheres to very strict production tolerances and guarantees the lowest possible defect density. Read more about some of our recent selected finished success stories.

Inside, metallized shadings enhance thermal comfort and glare control, allowing natural daylight to flood interiors while reflecting back more than half of solar energy.

Amorphous PV glass renovated the Frölunda Culture House in Gothenburg, Sweden, with over 60 custom sizes, enhancing insulation and meeting ...

The factory is tipped to produce thin cells suitable for European roofs in the first quarter of 2026. Midsummer said its long-term goal is to ...

In our factories, scientists and engineers combine their creativity and knowledge to mass produce Powerfoyle - our light harvesting solar cells. ...

The company has been part of the Soltech Group since 2020 and has designed and installed solar

façades for a range of large ...

The factory is tipped to produce thin cells suitable for European roofs in the first quarter of 2026. Midsummer said its long-term goal is to expand the factory's production to ...

In our factories, scientists and engineers combine their creativity and knowledge to mass produce Powerfoyle - our light harvesting solar cells. Once fully ramped up, we will be able to produce ...

As a leading solar-powered glass manufacturer, First Glass is dedicated to innovation in the development and production of advanced solar-powered glass solutions.
