What is a tariff in Portugal?

In general terms, tariffs are taxes imposed on goods as they cross international borders. In Portugal, the European Union's Common Customs Tariff governs the tariff structure, which is applicable to all member countries. When discussing tariffs, it is important to differentiate between import duties and export duties.

What are the tariffs imposed by Portugal in 2022?

Tariffs imposed by Portugal in 2022 are below. The maximum rate of tariff in percentage on any product is 175.99. The simple average tariff across all products is 2.11. The trade weighted average tariff is 1.40. The total duty free imports in thousands of US dollars are 24,276,100.80 and duty free tariff line items share is 66.77.

Why are imports and exports regulated in Portugal?

In Portugal, as in many countries, the import and export of certain goods are subject to regulation due to health, safety, and environmental concerns. Understanding these prohibitions and restrictions is crucial for businesses and individuals engaged in international trade.

What are the regulations governing trade in Portugal?

The regulations governing trade in Portugal are designed to streamline processes, ensure compliance with EU standards, and protect both traders and consumers. These laws encompass a range of areas including tariffs, documentation requirements, customs procedures, and quality standards.
