French grid operator Enedis has revealed that around 1,407 MW of new PV systems were connected to the French grid in the January-March period. By comparison, the ...

France's installed solar power capacity reached 26.77 GW at the end of March after the country connected 1.4 GW of new photovoltaic (PV) plants to the national power grid in the ...

France added 4.6 GW of new solar capacity in 2024, pushing its total to 22.1 GW. With ambitious targets set for 2030 and beyond, the country is ramping up ground-mounted ...

We'll be taking a close look at 15 of the most significant solar power farms in France below. Built by French renewable energy giant Neon, the Cestas Solar Park is France's largest ...

RWE has expanded its renewable energy portfolio in France with the commissioning of a new solar plant in Sourdun, Seine-et-Marne. The 16-megawatt (MW) ...

We'll be taking a close look at 15 of the most significant solar power farms in France below. Built by French renewable energy giant ...

France brought online 1 GW of solar photovoltaic (PV) parks in the first quarter of 2024, marking a year-on-year rise in new deployments ...

In France, start of construction of three photovoltaic projects. Volitalia (Euronext Paris, ISIN code: FR0011995588), an international player in renewable energy, launches ...

France installed 1.4 GW of solar in the first quarter of 2025, bringing its cumulative PV capacity to 23.5 GW
