Today, CATL has unveiled an even more robust version called the TENER Stack. Standing 20 feet tall, this ultra-large capacity ESS ...

With a single-unit capacity of 9MWh, it can fully charge 150 electric vehicles or power a typical German household for six years. "CATL remains a pioneer in the energy ...

On the first day of the Smarter E show in Munich, CATL, the world's largest battery manufacturer, unveiled the Tener Stack, which it describes as the world's first 9 MWh ultra ...

Today, CATL has unveiled an even more robust version called the TENER Stack. Standing 20 feet tall, this ultra-large capacity ESS offers several key improvements en route to ...

On May 7th, 2025, CATL has unveiled the world's first mass-producible 9MWh ultra-large-capacity energy storage system solution, TENER Stack, setting a new industry ...

TENER Stack incorporates CATL's high-energy-density cells with five-year zero degradation technology, achieving a 45% improvement in volume utilisation and a 50% ...

"To meet the expectation of a BESS system that has high energy density, small footprint, simpler AC-side configuration, and flexible ...

With a storage capacity of up to 9 MWh, the system can charge about 150 regular electric vehicles (EVs) or power an average German home for six years, according to CATL. ...

With a 9MWh capacity per unit, it can charge approximately 150 electric vehicles or power a typical German
