---

Progress at all five of the large solar photovoltaic concessions first launched in 2019 is an indication that Tunisia's renewable power sector may be moving forward despite ...

? list of projects proving at least five (5) years in the field of smart agriculture and support for farmers with a proven experience in the installation of solar photovoltaic water pumping ...

These large-scale solar farms are not only helping Tunisia reduce its carbon footprint and dependence on fossil fuels but are also ...

Anglo-Tunisian group SoleCrypt announced plans for a 60 MW PV plant in Tozeur, part of a broader initiative to connect eventually to the Medusa submarine cable, enhancing ...

The Tunisian Ministry of Industry, Mines and Energy has granted development licenses for four solar PV projects in Tunisia, with a ...

The Tunisian Ministry of Industry, Mines and Energy has granted development licenses for four solar PV projects in Tunisia, with a combined capacity of 500 MW.

This project aims to adapt to climate change impacts through the implementation of a smart irrigation system in a coastal wetland area. It involves utilizing sensors and data ...

These large-scale solar farms are not only helping Tunisia reduce its carbon footprint and dependence on fossil fuels but are also contributing to the country's broader ...

This study presents a novel adaptation of intermittent planted filters within the framework of vertical flow constructed wetlands (VFCWs), specifically designed for the arid ...

Supply and installation of Solar Photovoltaics water pumping for irrigation for the ACCISI-GEM Project in Ghar El Melh "Adapting to Climate Change Impacts through Smart Irrigation in Ghar ...

In 2009, the Tunisian government adopted "Plan Solaire Tunisien" or Tunisia Solar Plan to achieve 4.7 GW of renewable energy capacity by 2030 which includes the use of solar ...

The average total horizontal irradiation ranges from 4.2 kWh/m<sup>2</sup>/day in the northwest of Tunisia to 5.8 kWh/m<sup>2</sup>/day in the extreme south. Given these favourable ...
