---

On the first day of the Smarter E show in Munich, CATL, the world's largest battery manufacturer, unveiled the Tener Stack, which it describes as the world's first 9 MWh ultra ...

On May 7th, 2025, CATL has unveiled the world's first mass-producible 9MWh ultra-large-capacity energy storage system solution, TENER Stack, setting a new industry ...

Today, the company unveiled a 20-foot-tall energy storage system (ESS) called the TENER Stack, which, according to CATL, offers ...

"TENER Stack redefines the industry benchmark with its ultra-large capacity, flexible deployment, extreme reliability and silent operation."

With a capacity of 9MWh, it can charge 150 electric vehicles or power a German household for six years. The system supports both centralized and string PCS (Power ...

According to CATL, the unit can charge up to 150 electric vehicles or supply electricity to a typical German household for six years. The system incorporates CATL's ...

Today, the company unveiled a 20-foot-tall energy storage system (ESS) called the TENER Stack, which, according to CATL, offers breakthroughs in storage capacity, ...

&quot;To meet the expectation of a BESS system that has high energy density, small footprint, simpler AC-side configuration, and flexible ...

With a single unit storage capacity of up to 9MWh, it can charge approximately 150 electric vehicles or power a typical German household for six years. The large capacity of ...

Compared to conventional 20-foot container systems, it achieves a 45% improvement in volume utilisation and a 50% increase in projected energy density. Its internal ...

"TENER Stack redefines the industry benchmark with its ultra-large capacity, flexible deployment, extreme reliability and silent ...

"To meet the expectation of a BESS system that has high energy density, small footprint, simpler AC-side configuration, and flexible deployment, we bring the latest CATL ...
