Does Lithuania have a solar power plant?

An 850 kW solar power plant covers the building's facade and roof. It is also the first building in Lithuania to incorporate a solar power plant of this size into its facade. The IVC building is not connected to the city's heating network. The heating function is provided by 80 geothermal boreholes dug to a depth of 130 metres.

Where are SoliTek solar panels made?

In 2014, the SoliTek brand was launched, and production of glass-glass solar modules began. The company expanded into solar energy projects and installations in Lithuania by 2018. In 2020, SoliTek shifted towards battery manufacturing for solar systems, establishing partnerships for a factory in Vilnius.

Are SoliTek solar panels sustainable?

SoliTek solar panels are the first and only in the world to have the prestigious Cradle to Cradle gold certification, known as the "Oscar" of sustainability. As a manufacturer of renewable products, SoliTek goes even further. It's a net zero PV company, using exclusively 100% renewable energy in its module manufacturing.
