What certifications does our outdoor energy storage system meet?

Our outdoor energy storage system meets rigorous international standards, including GB/T 36558, IEC 62933, UL1973, and UL9540A. These certifications ensure top-tier safety and performance, making it a trusted option for battery technology for industrial use and commercial energy needs. Do not hesitate and fill the request form.

What components does TE support?

TE supports next-generation battery systems with a broad portfolio of more reliable, compact, safer components, including switches, connectors, DC contactors, off-board power resistors, power and control connections (terminal blocks, crimp terminals), identification and labeling, cable glands, and EMI filters.

What are the different types of power supply installations?

There are also many different types of power supply installations, including those which are installed indoors for communication centers and other facilities, and those which are installed outdoors such as those for mobile telephone base stations.
