-----  
Do you accept small sealed lead acid batteries?

In the state of New York, we accept Small Sealed Lead Acid batteries weighing up to 25 lbs. each. Accepted throughout the US. Accepted at no cost in Vermont only. U.S. Municipalities and other businesses can take advantage of our fee-based options through the GreenVantage Suite.

How many lithium batteries can a hybrid inverter stack?

Stack up to 9 Lithium Batteries per system! Just give our office a call and ask about adding more power storage. Delivering 10,000W of rated power output, this rugged pure sine wave hybrid inverter is capable of pairing with either GEL or LI batteries. Dual MPPTs provide 99% efficiency. Provides 120V and 220V output power.

How much solar can a 20 foot container hold?

20 foot containers can expand from 3,000W of solar up to 6,000W. 40 foot containers can expand from 3,000W up to 12,000W of solar in the future. We love the strategically placed solar panels on top of the container roof - we've accomplished this secure mounting with our field tested RPS Scalable Ground Mount.

The project will (i) introduce the first-of-its-kind near-shore marine floating solar photovoltaic power plant; (ii) install a battery energy storage system (BESS) and transmission grid with smart ...

Our local distributor is best suited to serve your recycling needs. Use the below directory to contact a distributor near you. Use this form if your ...

Properly recycling batteries reduces waste and recovers valuable materials. Find your nearest recycling location in seconds. Batteries contain ...
