Which network operators are the best in Portugal?

There are three network operators to choose from: MEO, Vodafone, and NOS. When it comes to subscribers, MEO leads the way with around 42% of the market share. Operated by the former state-controlled Altice Portugal, MEO has historically been dominant in the Portuguese market.

How many 5G stations are there in Portugal?

As of April 2023 their 5G network covered 88% of the population, with 3,441 base stations reinforcing its market leadership in the technology. Vodafone the second largest operator acquired Nowo which had been the fourth operator in Portugal, last year.

Which operators are closing the 5G gap in Portugal?

Operated by the former state-controlled Altice Portugal, MEO has historically been dominant in the Portuguese market. However, other operators, such as Vodafone (30%) and NOS (24%), are closing the gap. Good detail on 5G base station deployments. In Q4 the total 5G base station count of 5,842 increased 35%.

When did Portugal start liberalising the telecoms market?

The progressive liberalisation of the Portuguese market began at the beginning of the 1990s through the creation of the Portuguese Institute for Communications (ICP). Through a combination of specific deadlines for liberalisation and entry mechanisms for new market players, Portugal's telecoms scene was successfully opened up to competition.
