How did ConsumerAffairs choose the best solar energy companies?

The ConsumerAffairs Research Team used a research-backed, data-driven approach informed by our expert editors to choose the best solar energy companies. We considered thousands of verified reviews, equipment options, payment options, system warranties and production guarantees.

What makes a good solar company?

The best solar companies are often associated with the North American Board of Certified Energy Practitioners (NABCEP) or are certified by the Solar Rating & Certification Corporation (SRCC). 4. Ask about efficiency. Some solar panels work better than others. Higher-efficiency solar panels cost more but can make more power in less space.

How do I choose a good solar company?

To choose a good solar company, read customer reviews, compare quotes and financing options, check licenses and certifications, and ask about the solar panels' efficiency and warranty. Here are some tips to narrow down your options. 1. Read lots of solar company reviews. Look at what other people say about the company.
