Let's cut to the chase: In December 2023, Windhoek made history by launching Namibia's first grid-scale energy storage system. This 54MWh project in Erongo Region isn't ...

The recent 54MW/54MWh hybrid storage project in Erongo Region - Namibia's first grid-scale battery installation - proves this desert capital isn't just blowing hot air about sustainable energy.

As the sun sets over Windhoek's solar arrays, one thing's clear: This isn't just about keeping lights on. It's about proving that arid, resource-strapped regions can lead the green revolution.

Welcome to Windhoek Industrial Park, where cutting-edge energy storage solutions are rewriting the rules of sustainable manufacturing. This isn't just about batteries in ...

As Namibia's energy minister quipped at the launch: "We're not just storing electrons - we're banking sunshine dollars." With plans to expand capacity by 300% before ...

Together with the Government of Laos, EDF signed a memorandum of understanding to undertake the feasibility studies for a Pumped Storage Hydropower project located nearby ...

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of ...

That's what Windhoek industrial aluminum energy storage boxes bring to the table. These units are becoming the backbone of sectors ranging from solar farms in Namibia to manufacturing ...

This project, selected through an international tender with six proposals, will be the largest energy storage
